SUMMARY

Experienced Full Stack Developer and entrepreneur with 6+ years of expertise in frontend and backend technologies. Led teams, developed innovative solutions, and delivered successful projects. Currently building in Logistics & Supply chain. Passionate about continuous learning and staying ahead of industry trends.

EXPERIENCE

CTO & Co-founder
Lastmal Technologies Ltd   **April 2021 - Present, Accra, Ghana**

· Contributed to a 75% increase in user engagement by developing responsive and user-friendly frontend interfaces using VueJs, HTML, CSS, and JavaScript.
· Successfully integrated PHP and Laravel backend, ensuring seamless data flow and system stability, resulting in a 20% reduction in error rates.
· Implemented RESTful APIs, enabling efficient communication between frontend and backend, resulting in a 30% improvement in data processing time.
· Led a team of three engineers, fostering a collaborative and productive environment, resulting in development of four successful products. Developed integrations plugins for Woocommerce to sync user website with platforms.
· Actively participated in product design, and marketing meetings, providing valuable insights that contributed to an enhanced user experience and a 15% increase in user satisfaction.
· Conducted regular code reviews, ensuring adherence to coding standards and best practices, leading to a 25% reduction in post-release bug reports.

Flutter Developer
Vyb Dating   **September 2022 - February 2023, San Francisco, USA**

· Successfully led the development of the Vyb Dating mobile app using Flutter, ensuring cross-platform compatibility for both Android and iOS users.
· Delivered high-quality code within tight deadlines, contributing to the successful launch of the app.
· Utilized industry-standard authentication practices, protecting user data and privacy.
· Ensured dynamic and responsive chat feature, providing a smooth and interactive communication experience for users.
· Achieved a 25% decrease in user complaints related to login and authentication issues due to the implementation of a secure and seamless authentication system.
· Received positive feedback from users for the high-quality video call feature, resulting in a 4.8-star rating in the beta phase.

Frontend Web3 Developer (Contract)
Metrix Capital   **January 2022 - September 2022, USA**

· Contributed to notable projects such as Harbor Games, Kokoro Games, Titan Maker, Metarails, CCBTCONE, etc.
· Developed a wide range of web3 components using ReactJs, NuxtJs, JavaScript, Typescript & TailwindCss for various customer-facing features, including the MetaMask integrations.
· Updated and optimized an abandoned codebase, reducing loading times by 50% and improving website performance.
· Optimized web3 codebase to improve public API performance, increasing efficiency by 45%.
· Executed efficient debugging and coding to ensure secured environment and rapid bug resolution.
· Ensured cross-browser compatibility, maintaining product accessibility and usability on each browser tested.

React Native Developer
Owatech Innovations   **December 2019 - December 2020, West Hills, Ghana**

· Developed the Pentecost Youth App, a cross-platform mobile application for iOS and Android, using React Native and Google Firebase, resulting in a successful and widely-used product.
· Ensured high performance, reliability, and security, meeting industry standards and regulations, resulting in a 25% decrease in app crashes and a 20% increase in user trust.
· Actively participated in product design and development meetings, providing valuable technical insights and resolving potential roadblocks, resulting in efficient and successful implementation of new features.
· Stayed up-to-date with the latest industry trends and emerging technologies, ensuring the app remained competitive and relevant in the market, and incorporating new features, leading to a 10% increase in user engagement.

Fullstack Developer & CTO
Forhey Technologies   **August 2018 - December 2019, East Legon, Ghana**

· Successfully maintained legacy systems, reducing system downtime by 20% and enhancing overall system stability.
· Led the development of the Partner Visibility Portal, incorporating VueJs, Html, Css, Bootstrap, PHP, Laravel, and MySql, resulting in streamlined client communication and increased client satisfaction by 25%.

- Designed and implemented an in-house workspace platform, optimizing task execution and data accuracy, leading to a 30% increase in team productivity.
- Promoted from a junior developer to the CTO position, showcasing exceptional leadership and technical skills.

EDUCATION

Bsc. Information Technology
University of Cape Coast · Cape Coast, Ghana · 2018
